

Sue and Bill Gross Stem Cell Research Center

COMMUNITY SUPPORTER AND CONTRIBUTION FORM

I support the Sue and Bill Gross Stem Cell Research Center at UC Irvine, which expands UCI’s stem cell research infrastructure so that Orange County researchers can develop new treatments and cures for spinal cord injuries, diabetes, cancer, and brain disorders like Parkinson’s, ALS and Alzheimer’s. The Sue and Bill Gross Center brings dollars into the community to fuel research at our scientific facilities and medical hospitals, benefiting the Orange County economy. Please list me publicly as a local supporter of this life-saving endeavor.

About Signing the Community Supporter Form

1. By signing the form, you simply confirm that UC Irvine may list your name with those of other Orange County residents who support the Sue and Bill Gross Stem Cell Research Center. We will not associate your name with any other campus activity or issue.
2. You are lending your name to a broad Orange County coalition that includes other civic, medical, patient advocacy, business and academic leaders.
3. UC Irvine respects your privacy and will not share your information with third-party organizations or political lobbying efforts.
4. Our supporter rosters will only note your title and affiliation (when applicable) for identification purposes only.
5. Names and affiliations of supporting individuals or organizations may be used in educational materials such as pamphlets, fact sheets and brochures. All statements in these materials will be based on verifiable facts and information.
6. Signing this supporter form does not obligate you to contribute any time or money, attend UC Irvine events or give public comment. Your participation in such efforts or financial contributions are important to the Center's success and would be welcome but are entirely voluntary.
7. You may, at any time, remove your name from our list of supporters and unsubscribe from all mailing lists by notifying the Sue and Bill Gross Stem Cell Research Center at (949) 824-2911 or stemcell@uci.edu.
