

Sponsored by:

Sue & Bill Gross
Stem Cell Research Center

2024 Community Lecture Series

The presentations will be geared towards the *public* and *non-experts* – we invite everyone to attend!

Monthly on Tuesday

7:00 – 8:00 PM

Location: UCI, Gross Hall Thorp Conference Center

***Please see email notifications about parking**

Presented by:

Director, Aileen J. Anderson, PhD

Associated Dean, Brian J. Cummings, PhD

**MOVED TO
A LATER
DATE**

Anne Calof, PhD & Stephenson Chea

“Using the Tools of Systems Biology to Trace the Origins of Birth Defects in Human Genetic Disease”

**FEB
6**

Tom Lane, PhD

“COVID-19 and the Impact on Alzheimer’s Disease Neuropathology”

**MAR
5**

Katie Thompson-Peer, PhD & Sydney Prange

“Regrowing What Was Lost: Recovering After Nerve Cell Injury”

**APR
2**

Mathew Blurton-Jones, PhD

“Harnessing Stem Cell-Derived Microglia to Deliver Therapeutic Proteins to the Brain”

**MAY
7**

Asuka Eguchi, PhD

“Gene Therapy for Muscle Diseases”

**JUNE
4**

Lisa Flanagan, PhD

“How Do Neural Stem Cells and Blood Vessels Communicate - Via Voicemail or DM?”

**SEPT
3**

Pablo Lara-Gonzalez, PhD

“Control of Cell Division and Mitosis in Embryos: Lessons from Worms”

**OCT
1**

Aileen Anderson, PhD & Daniela Bota MD, PhD

“When Good Cells Go Bad - New Ways to Fight Brain Tumors”

**OCT
29**

Christopher Hughes, PhD

“Tissue Engineering and Angiogenesis – Making New Blood Vessels”

**NOV
26**

Minji Byun, PhD

“Growing Up and Growing Old: The Role of Epigenetics in Our Health”

DON'T MISS OUT, RSVP TODAY!
